

To Whom It May Concern:

We recently worked with Weston Security Systems for the installation of our Onity hotel lock system.

Jonathan Francis and his team were knowledgeable, patient, very attentive throughout the entire project.

The entire installation was completed on time and the team ensured that every lock was programmed and tested before completion, providing exceptional service and professionalism.

The customer service team at Weston was very helpful, diligent and accommodating. All concerns were handled quickly and professionally, making us feel valued and respected.

We highly recommend Weston Security Systems to any hotel or business looking for reliable lock and security solutions.
