

The Junction Inn & Suites had a serious door security issue that we were troubled with for some time. I exhausted every option for the contacts I had.

We then discovered Weston Hardware Security Systems. Immediately **Anthony G.** put us in contact with a very knowledgeable service tech **Jonathan** who was eager to help solve our issue. He was diligent in walking me through ordering the right parts and installation.

The professionalism I encounter with Anthony and Jonathan is beyond my expectation. The eagerness and follow through for our hotel security is at the highest of respectability. We are grateful for the service and customer care Weston Hardware provides for their clients.

Thank you, Jonathan.

Donald Maxson GM Junction Inn& Suites

A handwritten signature in black ink, appearing to read "Donald Maxson", is written over a large, loopy flourish. To the right of the signature, the year "2026" is handwritten.
